

A hand holding a pencil is positioned over a document. A large teal circle is centered over the image, containing the text "This is your presentation title". Surrounding the teal circle are several smaller circles in orange, red, yellow, and white, each containing a different icon: a puzzle piece, a lightbulb, and a thumbs up. The background is a blurred image of a person's hands and a document.

# 1. Transition headline

Let's start with the first set  
of slides

*Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.*

This is a slide  
title

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

# Big concept

Bring the attention of your audience over  
a key concept using icons or illustrations

You can also  
split your  
content

## White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

## Black

Is the color of coal, ebony, and of outer space. It is the darkest color, the result of the absence of or complete absorption of light.

## In two or three columns

### Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

### Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

### Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

A picture is  
worth a  
thousand words

A complex idea can be  
conveyed with just a  
single still image, namely  
making it possible to  
absorb large amounts of  
data quickly.

Want big impact?  
Use big image.

Use charts to  
explain your  
ideas

And tables to  
compare data

|        | A  | B  | C  |

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change line color, width and style.

Isn't that nice? :)

Examples:

Now you can use any emoji as an icon!  
And of course it resizes without losing quality and you can change the color.
